Freedom of Espresso

Intense and Spicy?

Rich and Fruity?

Strong and Bitter?

NexPod, Freedom of Espresso

# NexPod

Freedom of Espresso

[www.nexpod.com](http://www.nexpod.com)

NexPod®, compatible with Nespresso®, is a system of single use capsules, made of food grade plastic, to be filled in an easy and clean way for your Nespresso® coffee machine.

The disposable NexPod® capsules let you to use your Nespresso® machine with the coffee or tea of your choice. You can fill them with the ground coffee of your choice. The capsules are easy to close with their cap and are inserted into the Nespresso® machine just like a normal Nespresso® capsule.

## Fill and use the capsule

The capsules are easy to fill with traditional ground espresso coffee.

1. Insert the paper filter into the cover of the capsule;
2. Use the capsule like a spoon to collect coffee directly inside the coffee bag without spilling;
3. Press the ground coffee in the capsule;
4. Clean the border of the capsule from excessive coffee before closing the lid;
5. Insert the NexPod® capsule into the machine just like an original Nespresso® capsule.

For a stronger espresso use a finer ground coffee.
